

Shoring Redesigned

Easy Tech's innovative, light weight, hand movable shoring system is designed for small utility excavations. Assemble half circle pieces together up to 28' to create a circular trench cage with access steps on the inside. Easy Dig Trench Cages were designed with ease of use in mind. They are small enough to bring along and strong enough to protect.

- Safe and Convenient
- Increases Hydrovac Utilization
- Small Excavation Foot Print
- Low Ground Disturbance
- Use from 4' to 28' deep
- 48" Diameter
- Built in Ladder
- Lifting Hooks
- Patent Pending
- Engineer Stamped

WORK SAFELY

There is an average of
25 FATALITIES
due to trench cave-ins in
North America per year

Low Ground Disturbance

Easy Tech's Shoring brings
62% less damage
to ground surface than
traditional rectangular
shoring.

Dig Easy with Easy Dig

Applications | Use

- Utility Pole Installations & Inspections
- Curbstop Repairs
- Sewer and Water Repairs
- Directional Drill Bore Pits
- Cable Splicing & Repair
- Visual Pipeline Inspections
- Residential CIPP Installation

Use with a hydrovac
for efficient repairs.
